

HEEJUN YOON

Ph.D. Student at HEC Montréal, Mila, and GERAD

✉ heejun.yoon@mila.quebec | [in linkedin.com/in/heejun-yeon](https://www.linkedin.com/in/heejun-yeon) | [🏠 heejunyeon.github.io](https://heejunyeon.github.io)

EDUCATION

HEC Montréal / Mila

Ph.D. in Data Science

Montréal, Canada

Aug 2026 – Present

- Advisors: [Prof. Tegan Maharaj](#) & [Prof. Olivier Bahn](#)

Ewha Womans University

M.S. in EE

Seoul, Republic of Korea

Aug 2024

- Advisor: [Prof. Jeongtae Kim](#)
- GPA: 4.0/4.0
- Coursework: Deep Learning, Signal Processing, Big Data, CPS (All A+)

Ewha Womans University

B.S. in EE, Magna Cum Laude

Seoul, Republic of Korea

Feb 2023

- Minor: Mathematics
- Major & Minor GPA: 3.79/4.0 (4.3 scale: 3.90/4.3)

RESEARCH EXPERIENCE

Mila & GERAD

Ph.D. Student

Montréal, Canada

Aug 2026 – Present

- Advisors: [Prof. Tegan Maharaj](#) & [Prof. Olivier Bahn](#)
- Developing decision-centric AI methods for climate risk quantification with limited data, including generative data acquisition policies and multi-objective reward functions based on climate-economic models.

[Korea Institute of Science and Technology \(KIST\)](#)

Post-Master Researcher (Advisor: [Dr. Soomin Kim](#))

Seoul, Republic of Korea

Jan 2025 – Jul 2026

- Developed a 3D-aware positional embedding method that combined 3D coordinates with 2D positional embeddings for multiview spatial reasoning.
- Outperformed the project baseline and Gemini Pro on ScanQA and MuirBench.
- Developed VLA methods for robot navigation and long-horizon task planning.

Ewha Womans University

Graduate Research Assistant, DSPL (Advisor: [Prof. Jeongtae Kim](#))

Seoul, Republic of Korea

Mar 2023 – Jul 2024

- Developed a lightweight twin-network inspection system for IC substrates that handled image mis-registration and product variation; this work formed the basis of the M.S. thesis.

Ewha Womans University

Undergrad. Research Assistant, DSPL (Advisor: [Prof. Jeongtae Kim](#))

Seoul, Republic of Korea

Jul 2020 – Feb 2023

- Applied FMCW radar signal processing and deep learning to people counting, motion recognition, and contactless vital-sign estimation.

PUBLICATIONS & THESIS

- [1] H. Yoon, “A Combined Twin and Single Network for Fast and Robust Inspection of IC Substrates,” *M.S. Thesis*, Ewha Womans University, 2024.
- [2] H. Yoon*, D. Yeom*, S. Lee*, and K. Lee, “Personal Mobility Safe Driving System with Knowledge Distillation,” *2023 IEEE 20th International Conference on Ubiquitous Robots (UR)*, 2023. (*Equal contribution)
- [3] H. Yoon, J. Park, and J. Kim, “Action Recognition using 3D Point Cloud from Frequency Modulated Continuous Wave Radar Signals,” *2023 Image Processing and Image Understanding (IPIU)*, 2023.
- [4] H. Yoon*, D. Yeom*, S. Lee*, and K. Lee, “2-input Deep Learning based Multi-tasking Safe Driving,” *Fall Annual Conference of The Institute of Electronics and Information Engineers (IEIE)*, 2022. (*Equal contribution)

HONORS & AWARDS

Canada Impact+ Research Training Awards Gov. of Canada, NSERC	2026 – 2029
Full-tuition Scholarship (Merit-based) Ewha Womans Univ.	Mar 2023 – Aug 2024
BK21 Overseas Training Scholarship BK21 Plus, Ewha Womans Univ.	Jun 2023
Kwanjeong Scholarship (\$18,000)	Mar 2021 – Feb 2023
Grand Prize, Undergraduate Thesis Competition IEIE	2022
Gold Prize, Engineering Capstone Design Contest Ewha Womans Univ.	2022
Dean’s List Ewha Womans Univ.	Mar 2019 – Dec 2022
Gold Medal, AI-JAM Korea 2020 Competition	2020

TEACHING & LEADERSHIP EXPERIENCE

Teaching Assistant	Ewha Womans Univ.
<i>Digital Signal Processing (Fall 2023); Calculus (four semesters, 2019–2021); Introductory Creative Convergence Basic Design (Fall 2020)</i>	
Ewha Electronics Innovation (Academic Club)	Ewha Womans Univ.
<i>Member (2019–2022); President (2021)</i>	
Major Mentoring	Ewha Womans Univ.
<i>Head Mentor, Department of Electrical Engineering</i>	<i>2021, 2022</i>

SKILLS

Machine Learning: PyTorch, Hugging Face Transformers, VLMs, Knowledge Distillation
Robotics & Simulation: ROS, ROS 2, OmniGibson, Isaac Sim
Programming & Tools: Python, C++, MATLAB, Bash, Docker, Git, Weights & Biases
Languages: Korean (native); English (TOEFL iBT 108: R29, L29, S23, W27)
